Create New Project

This is what the home page looks like at first log in. You would select **New** on the top right corner to begin creating a shower.

The screenshot displays the 'Project List' interface. On the left is a table of projects, and on the right is a detailed form for a selected project. A blue button labeled 'Design Shower' is highlighted with a blue arrow.

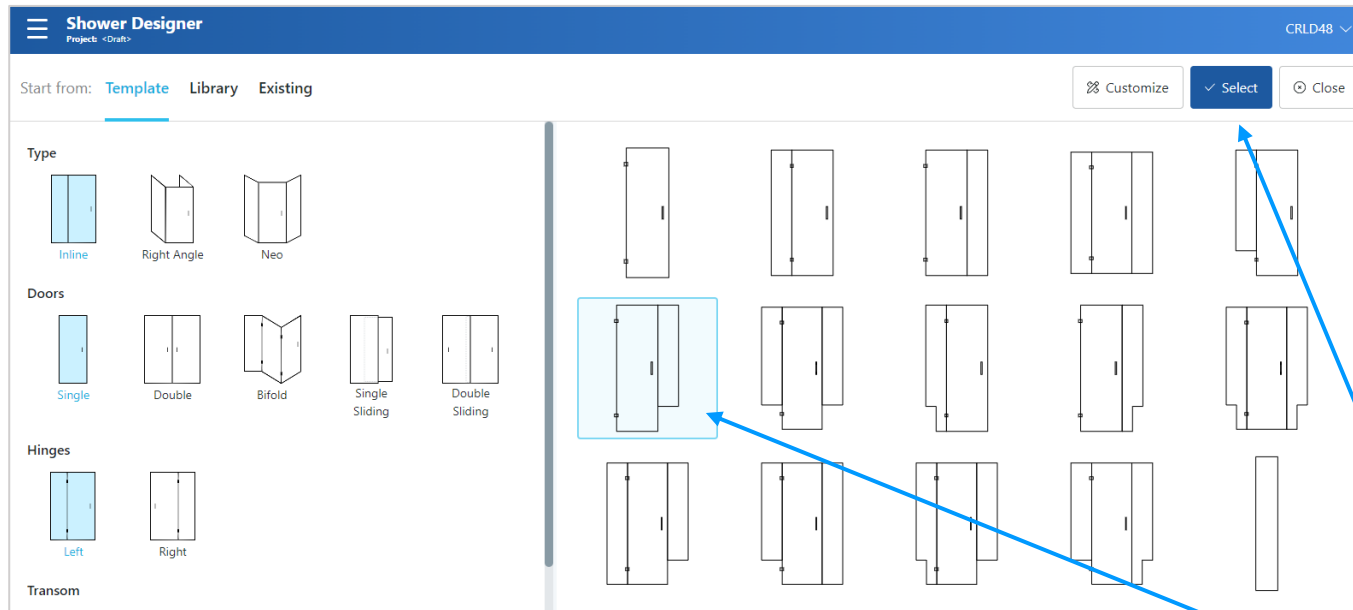

ID	Project Name	Customer	Quote #
16734559			
16733514	MURPHYS GLASS	Middle Bathroo...	054637-11-09-202
16733414	MURPHYS GLASS	Front Bathroom	054588-11-09-202
16732023	west georgia gl...	ring	053870-11-08-202
16731872	NEIGHBORS SA...		
16731840	LW Test		
16731256	<Draft>		
16730130	TEST		
16728992	<Draft>		
16728877	Shower Doors ...	6612 Sapphire cir	
16728782	KOOL MASTER ...	Arkins	
16728705	NW GLASS LLC	Carl T.	V67211
16728256	<Draft>		
16727947	<Draft>		
16727946	<Draft>		

The form on the right includes fields for Project Name, Project ID (16734559), Customer Name, Location, Project Code, Owner (Select...), Quantity (1), Date Entered (11/09/2022), and Status (Select...). It also features a 'Design Shower' button, a 'Price' section with Sub Total, Tax Amount, and Total Price fields, and a 'Calculate' button. A message states: 'A preview will be shown once a shower has been created.'

Start New Design

In this screen you would input Project Name (Customer Co. name-internal) and fill out form as needed.

You would then select **Design Shower** to start design.

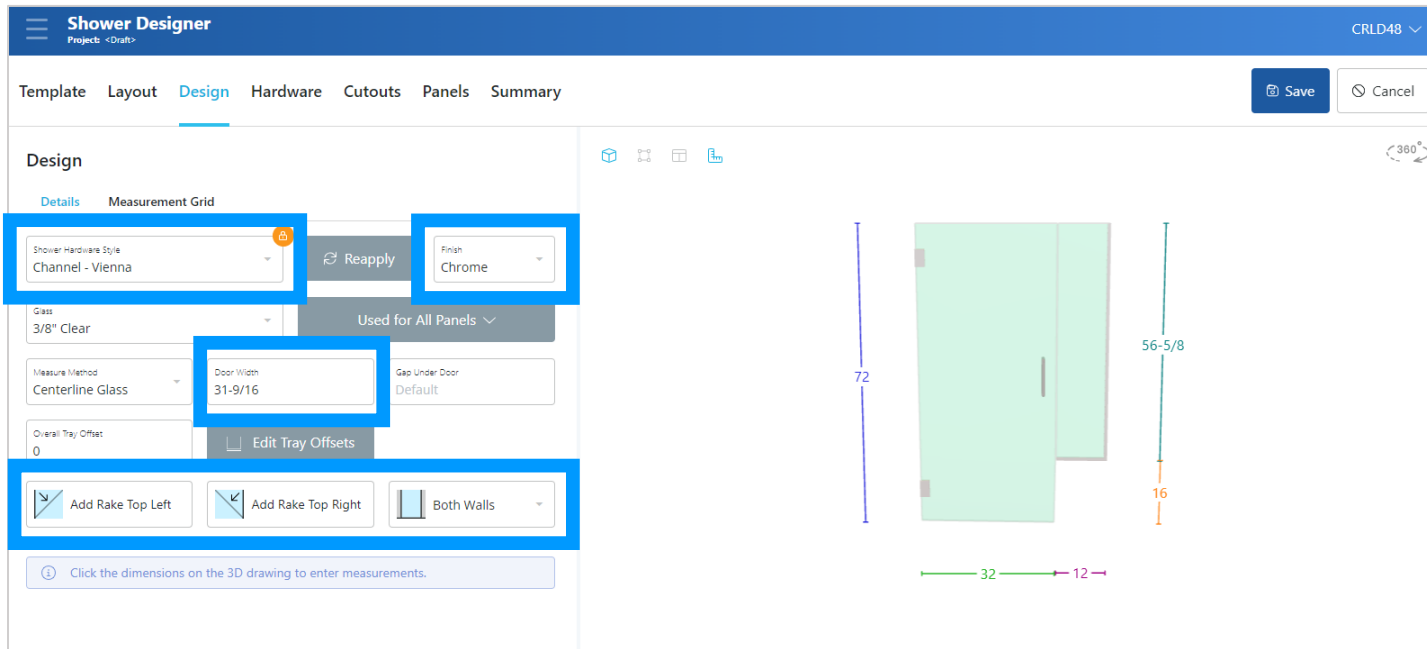

Template Selection

This screen displays numerous templates available for your application

If desired template is not displayed, select the one closest to it and you can always modify/change on the next screen.

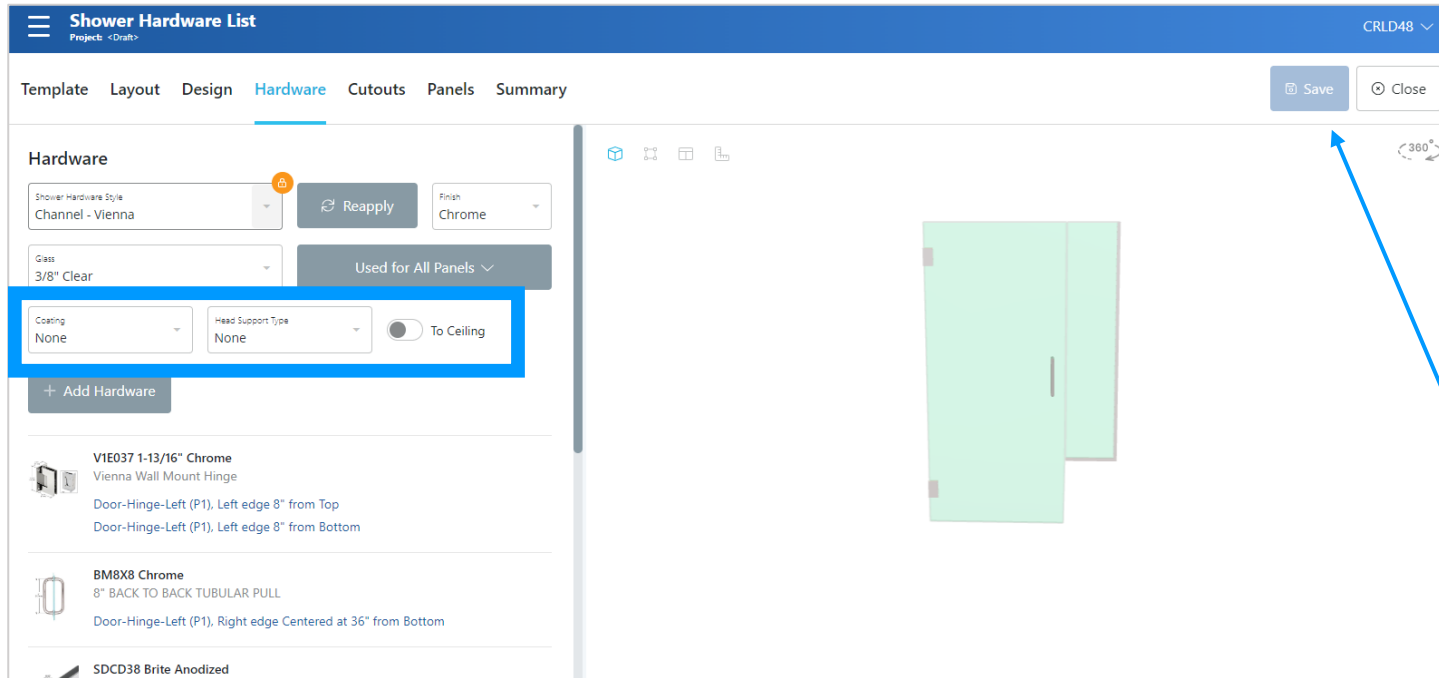

Once you find desired template click on it to highlight and hit **Select** - top right of screen

Design Page

- Add Dimensions/Outages
- Select Hardware Style
- Select Finish
- Rakes
- Door Width

Once all selected/entered hit **Save** top right corner

Hardware Page

In this screen you may add/remove/change hardware

- Add coating for glass
- Add head support
- Indicate if application is going to ceiling

Once all selected/entered hit **Save** top right corner

Cutout Type: Mouse Ears

Notch Inwards: 1-13/16 Notch Along: 3

Glass Drawing

Cutout Drawing

Cutouts Page

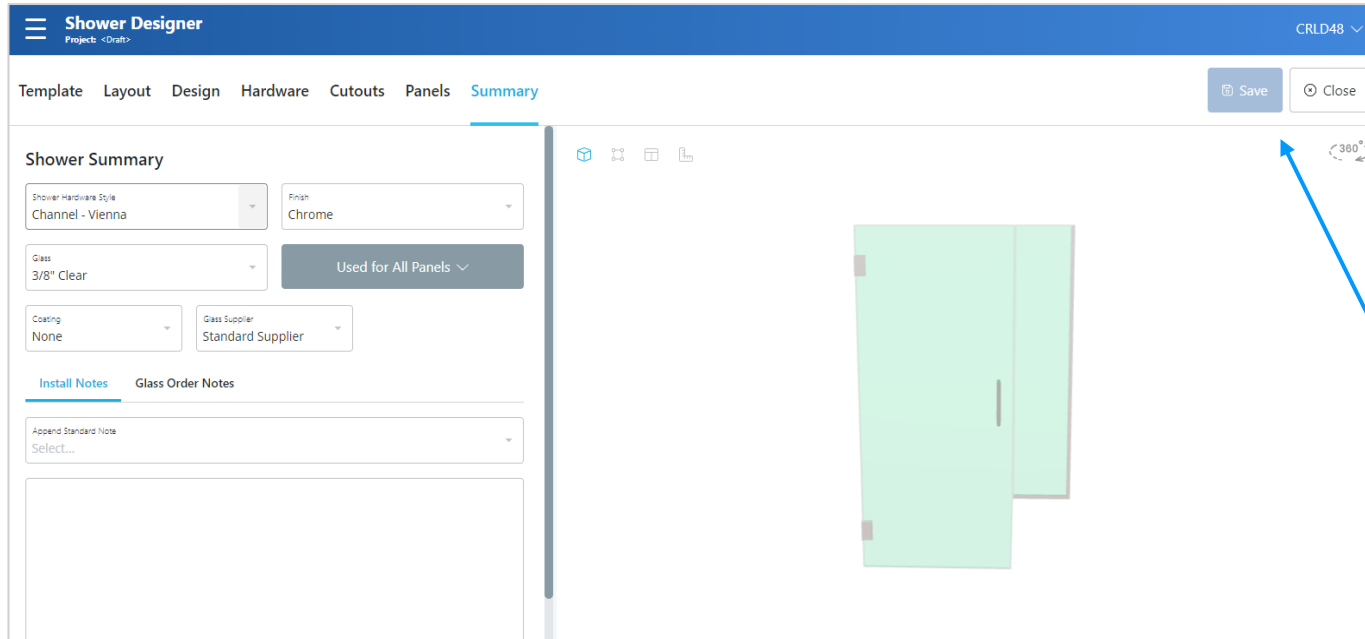

By double clicking on hinge (yellow), it will display image below - shows individual panel, cutout and 3D view.

The screenshot shows the 'Panels' page in the Shower Panel software. The top navigation bar includes 'Template', 'Layout', 'Design', 'Hardware', 'Cutouts', 'Panels', and 'Summary'. The 'Panels' page is active, showing a 'Door-Hinge-Left (P1)' panel. The 'Next >' button is highlighted with a blue arrow. The 'Glass Drawing' shows a technical drawing of the panel with dimensions: 28'-5.18" (width), 21'-9.016" (height), 31'-9.116" (width), 32" (height), 31'-9.116" (width), and 36'-1.12" (height). The drawing also shows a 'Glass' section and a 'Panel Source' dropdown set to 'Custom Ordered'. A 'Requires Template' toggle is visible at the bottom left.

Panels Page

This page will list individual panels showing exact glass dimensions.

Select **Next** to view other panels

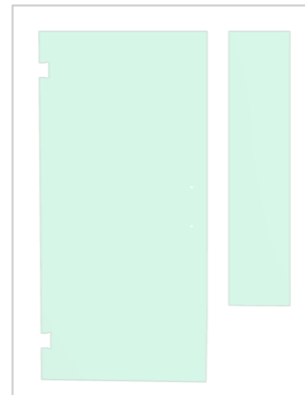

Summary Page

Views:

- 3D
- Overhead
- Broken Down

May add installation notes and glass order notes

Select **Save** and then Close at the top right corner once done.
